STRATEGIC PLAN 2023 - 2027

DECEMBER 2023

WOMEN ENTERPRISE FUND

STRATEGIC PLAN 2023 – 2027

DECEMBER 2023

**“When you empower a Woman,
you empower a Family and a whole Nation”**

Vision

A sustainable Fund Empowering Kenyan Women for Social and Economic Development.

Mission

To facilitate women socio-economic empowerment by providing access to credit, capacity building, market linkages, market infrastructure, and domestic and international trade and through utilization of technological innovations.

Core Values

Integrity

Professionalism

Equality and Equity

Transparency and Accountability

Innovation

Teamwork

Diversity and Inclusivity

FOREWORD

Women empowerment is a major catalyst for national development, and this is demonstrated by the numerous evidence that shows nations which have invested in women make major strides towards sustainable development. In Kenya, women constitute 50.5% of the population highlighting their importance and relevance in taking part in and defining national development agenda. The Bottom-up Economic Transformation Agenda amplifies this reality through the MSME economy pillar and Women Agenda with financial inclusion of women as a critical factor for meaningful women participation. Women form a substantial number of the SMEs with 31.4 percent of the SMEs in Kenya female owned and 17% co-owned by both men and women. These statistics the government commitment to grow the Fund from the KSh 4.5 billion to KSh 13.5 billion in the next 5 years to enable 100 per cent access to affordable finance for women a strategic investment.

The Women Enterprise Fund Strategic Plan 2023-2027 is inspired by the desire to enhance financial accessibility for women entrepreneurs and places premium in financial sustainability, to operationalize BETA and MTPIV. The Strategic Plan in response to the transformation agenda will seek to achieve five strategic goals anchored in fund growth, financial inclusion, capacity building, market accessibility, and institutional strengthening as the Key Result Areas.

Successful implementation of the strategic plan will require robust resource mobilization, review of the internal policies and procedures, enhancement of partnerships and collaborations, enhanced communication and stakeholder engagement as well as strengthening and enhancement of the organizational structure to ensure it drives the Strategic Plan. The Board will provide support in these key areas as well as provide oversight through support to capacity enhancement, adequate monitoring, evaluation, and implementation of the requisite reporting systems.

Most importantly, the timely and continuous support of the Cabinet Secretary, Ministry of Gender, Culture, The Arts and Heritage, the Principal Secretary, State Department for Gender, and Affirmative Action to the Fund is extremely critical in achieving the goals in this plan. The Cabinet Secretary, The National Treasury and Economic Planning will equally play an important role to ensure that WEF goals are adequately financed.

Dr. Jane Lang'at
Board Chairperson

PREFACE AND ACKNOWLEDGEMENT

The Strategic Plan 2023-2027 was prepared through a consultative and collaborative process with key stakeholders and builds on the Strategic Plan 2019-2024. Critical issues identified in this Strategic Plan include lack of sustainability of the Fund; low loan access; low financial literacy and entrepreneurial skills among target groups; market access challenges for women entrepreneurs and institutional capacity challenges. These issues require policy, programmatic and operational interventions. Through a careful diagnosis and root cause analysis, the strategic plan provides a strategic response that will enhance the participation of women entrepreneurs in economic opportunities and by extension cement their role in the national, regional, and global development agenda.

For the Strategic Plan 2023 -2027 implementation period, WEF strategic objectives are: growing the Fund value, expanding financial access for millions of women entrepreneurs, enhancing capacity for women entrepreneurs on financial literacy, value addition, AGPO and business counselling, improving market access for women entrepreneurs through linkages, market facilitation and decent workplace, and strengthening human capital, policies, processes, and technological infrastructure. These have been judiciously identified considering the internal environment, the external environment, challenges, lessons learned, and stakeholder expectations.

Under each objective, several strategies have been carefully formulated with related strategic initiatives, annual targets per initiative and responsibilities allocated. It is imperative to note that the preparation of this Strategic Plan has been by the guidelines for preparation of fifth generation strategic plans as provided by the State Department for Economic Planning and other relevant policies and guidelines. As already observed, it is aligned to the Government overall strategic direction as espoused in BETA and MTP IV. The Management commits to ensuring planned activities are implemented efficiently and effectively. Systems, processes, and policies will be updated to leverage technology in service delivery, processes, monitoring, evaluation, and reporting and to support knowledge management. Indeed, at the center of this strategic plan is the aspiration to create an inclusive financial ecosystem. We recognize the value of embracing innovation, emerging technologies, and nurturing a culture of continuous improvement to fulfill its mandate in an ever-changing environment. We will always endeavor to remain accountable and protect the integrity of the Fund.

I would like to thank the WEF Management team, staff and for working tirelessly to ensure that the strategic plan meets the aspirations of all. My gratitude goes to the members of the Strategic Plan Technical Committee who worked diligently to prepare the Strategic Plan ensuring it is comprehensive, inclusive, and aligned to relevant policies and guidelines. I also thank the WEF Advisory Board for their guidance and input which was essential in shaping the Strategic Plan. Gratitude also goes to our partners specifically ILO and IDinsight and stakeholders who provided valuable input to improve the overall Strategic Plan.

-------------------------------	----

DEFINITION OF CONCEPTS AND TERMINOLOGIES

Baseline: A description of the initial state of an indicator before the start of a project/Programme, against which progress can be assessed or comparisons made.

Core Values: The guiding principles; what the organization believes in, and philosophy.

Indicator: A means for measuring progress/change that results from an intervention. It measures a change in a situation or condition and confirms progress towards achievement of a specific result. It is used to measure a project impact, outcomes, outputs, and inputs that are monitored during project implementation to assess progress.

Key Activities: Actions taken, or work performed, through which inputs are mobilized to produce outputs.

Key Results Areas: They are the broad areas in which you are expected to deliver results.

Mission: What is the organization about; the purpose; what it does.

Outcome: The intermediate results generated relative to the objective of the intervention. It describes the actual change in conditions/situation because of an intervention output(s) such as changed practices as a result of a programme or project.

Output: Products, services, or immediate results, tangible or intangible resulting directly from the implementation of activities or applying inputs.

Strategic Goal: General qualitative statements on what an organization is hoping to achieve in the long term. Each strategic goal is linked to a strategic issue.

Strategic Issues: These are problems or opportunities emanating from situational analysis that an organization must manage to be able to fulfil its mandate and mission.

Strategic Objectives: These are what the organization commits itself to accomplish to achieve strategic goals.

Strategies: Broad abstractions which are descriptive of the means for achieving the strategic objectives.

Target: A result to be achieved within a given time frame.

Vision: The picture of the future; what the organization wants to accomplish in the future.

Product: Loans provided by the Fund.

Services: are nonfinancial products offered by the Fund.

EXECUTIVE SUMMARY

The Women Enterprise Fund (WEF) was established via Legal Notice No. 147: Government Financial Management (Women Enterprise Fund) Regulations, 2007 with the core mandate of women economic empowerment. The object and purpose are to provide loans and business support services for women micro, small, and medium enterprises. The Fund implements its mandate through five-year strategic plans that align its activities with national, regional, and global development priorities. The Strategic Plan 2023 – 2027 is aligned with Kenya Vision 2030, the Bottom-up Economic Transformation Agenda, the Fourth Medium Term Plan, the Africa Agenda 2063, The EAC Vision 2050m, and the Sustainable Development Goals.

The process was consultative and participatory involving various internal and external stakeholders. The main activities undertaken included a review of the achievements of the previous strategic plan where successes, challenges, and lessons learnt were recorded. In addition, an internal and external analysis was undertaken, and opportunities identified include technological advancements, high demand for the loans, partnerships and collaborations, goodwill from stakeholders. Stakeholders' expectations were also mapped out. Strategic issues that emerged from the analysis include lack of sustainability of the Fund; low loan access; low financial literacy and entrepreneurial skills among target groups; market access challenges for women entrepreneurs and institutional capacity deficit.

The Strategic plan is guided by the Fund's Vision is *a sustainable Fund empowering Kenyan women for social and economic development* while the Mission is *to facilitate women socio-economic empowerment by providing access to credit, capacity building, market linkages, market infrastructure, and domestic and international trade and through utilization of technological innovations*. The core values and guiding principles are Integrity, Professionalism, Equality and Equity, Transparency and Accountability, Innovation, Teamwork, and Diversity and Inclusivity. The WEF Slogan- *"When you empower a woman, you empower a family and a whole Nation."*

The Strategic Plan identifies five Key Result Areas (KRAs) namely, KRA1. Fund growth concerned with sustainable operations with surplus, KRA2. Financial inclusion interested in expansion of loan access to unreached women, KRA3. Capacity building addresses the skills gap inhibiting women from running successful MSMEs, KRA4. Market accessibility addresses the need to bolster marketing of women products, and KRA5. Institutional development concerned with the capacity of the WEF to deliver on its mandate. Under each Key Result Area, strategic objectives were formulated. Realization of these strategic objectives will be supported by various strategies and activities. Key responsibility areas have also been identified alongside the annual targets.

The plan has a framework that will support its implementation. This includes human resource, financing, risk management and business process reengineering. Out of an approved staff establishment of 392, there are 363 in post leaving a variance of 29. The establishment data shows a high human resource gaps in the highly technical fields. There is a proposed optimal staffing level as well structure to effectively drive the strategy. Further, this requires KSh 35 billion in the next five years against a projected government allocation of KSh 3 billion and loan repayment of KSh 20.5 billion over the same period leaving a deficit of KSh 11.5 billion. To bridge the financing gap, WEF will lobby parliament and exchequer for KSh 9 billion

additional exchequer commitment, grow revenue from income activities, and work with donors and development partners to finance non-financial services.

A risk analysis matrix has also been developed showing identified risks, the rating based on likelihood and impact as well as the mitigation measures. Finally, an elaborate monitoring, evaluation and learning system has been proposed. For this, WEF will adopt standard templates for collecting data and reporting; communicate documents to be prepared, frequency, and information to be provided; implement a performance management system making every officer accountable for resources assigned and attainment of set targets; and ensure smooth implementation of the strategic plan.

CHAPTER ONE: INTRODUCTION

This chapter outlines Strategy as an imperative for Organizational Success, the Context of Strategic Planning, United Nations 2030 Agenda for Sustainable Development, African Union Agenda 2063, East Africa Community Vision 2050, Constitution of Kenya, Kenya Vision 2030, Bottom-Up Economic Transformation Agenda and Fourth Medium Term Plan, Sector Policies and Laws, History of the Organization, and Methodology of Developing the Strategic Plan.

1.1. Strategy as an imperative for Organizational Success

In today's dynamic and ever-evolving landscape of the business environment, organizations face unprecedented opportunities and threats. The relentless pace of change, the emergence of disruptive technologies, and the demands of an increasingly discerning customer base have compelled businesses to re-evaluate their approaches to achieving success. Amidst this turbulence, the concept of strategy has risen to the forefront as an imperative for organizational success. A strong Strategic Plan positions the organization for success and clearly defines it at every level.

The significance of strategy in the modern business world cannot be overstated. It is the compass that guides organizations toward their vision, desired destinations, providing a clear sense of direction, purpose, and a framework for decision-making. Strategy transcends mere planning; it is the dynamic process by which organizations align their resources, capabilities, and ambitions to capitalize on opportunities and mitigate threats. Whether an organization seeks growth, market leadership, sustainability, or adaptation to unforeseen challenges, strategy lies at the heart of its journey.

Armed with this understanding, the Women Enterprise Fund has traditionally embraced strategic planning as a critical driver of her success. The 4th Strategic Plan was not only guided by the mandates as per establishing instruments, but also Global Development Agenda such as UN 2030 Agenda, and AU 2063 Agenda, regional priorities that include East Africa Community, Vision 2050, and national development priorities such as Vision 2030, Fourth Medium Term Plan (MTP_IV) 2023-2027, BETA, Sector Policies and Laws.

Besides being a regulatory requirement, the Strategic Plan defines the Fund's strategic direction over the period 2023/24 – 2027/28 by defining the Vision, Mission, Strategic Goals, Core Values and Quality Statement. It lays down the Strategic issues, Key Result Areas, Strategic objectives inspiring her operations, strategic choices to enable exploit opportunities and mitigate threats, and a roadmap for their execution. The Strategic Plan also provides plans for implementation of programmes and projects; mechanisms for monitoring and evaluating milestones; outlining resources and capabilities requirements; resource mobilization strategies; and performance standards.

This Strategic Plan acts as a guide on both strategy and policy direction and will be implemented through annual work plans and budgets.

1.2. The Context of Strategic Planning

The Fund is a key player in the implementation of regional and international development frameworks such as Sustainable Development Goals, AU Agenda 2063, EAC Vision 2050, and

national development priorities such as the Vision 2030, Bottom-up Economic Transformation Agenda, and MTP IV. The focus is on enhancing gender equality, women economic empowerment and gender mainstreaming which the Fund has taken account of in drafting this Strategic Plan.

1.2.1. United Nations 2030 Agenda for Sustainable Development

The Sustainable Development Goals (SDGs) are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity. The SDGs aim at ending all forms of poverty. The Fund's mandates make primary contributions to the attainment of the following SDGs:

SDG 1 - No Poverty: The Fund provides credit and BDS which enables women to participate in income generating activities thereby addressing poverty.

SDG 5 - Gender Equality: Through access to credit and business support, women are empowered to participate in economic activities and household decision making.

SDG 8 - Decent Work and Economic Growth: The Fund facilitates infrastructure development for women owned businesses to improve their work environment.

SDG 10 - Reduced Inequalities: The Fund promotes financial inclusion thus reducing inequalities in the financial sector.

SDG 17 - Partnerships for the Goals: The Fund collaborates with various stakeholders, including government agencies, NGOs, and financial institutions, to enhance its impact and achieve its objectives.

Other SDGs effected by the Fund's activities include:

SDG 2 - Zero Hunger: The Fund provides financing and support to women entrepreneurs for investment in agricultural value chains and other income generating activities. This has been evidenced to lead to increased household incomes thus improving food security.

SDG 3 – Good Health and Well-being: The Fund provides financial and non-financial support to women entrepreneurs which has been evidenced to lead to improved access to healthcare and nutrition.

1.2.2. African Union Agenda 2063

The Maputo protocol adopted during the second ordinary session of the African Union Assembly of 11th July 2003, of the African Charter on Human and People's Rights on the rights of women in Africa, emphasizes in Article 13 the Economic and social welfare rights of women.

On 4th February 2015, the African Union Summit adopted the African Union Agenda 2063. The Agenda provides a roadmap for Africa's long-term development that includes the need to place gender equality and equity at the center of the continent's social and economic development. It further provides for enhancing women's contribution and benefit from formal agriculture, agribusiness, and value chain; enhancing women's access to health, pushing forward women's economic empowerment; enhancing the agenda on women peace and security and enhancing women and girls' access to education, science, and technology.

The Strategic Plan outlining measures targeted towards enhancing the two priority areas identified by the “AU Agenda 2063 on goal 17 which is on full gender equality in all spheres of life addressing women empowerment, violence & discrimination of women and girls.”

The Fund addresses women empowerment through enhancing funding of women Micro, Small and Medium Enterprises (MSMEs), building the capacity of women and their enterprises, promoting domestic and international trade; and linking women MSMEs to large enterprises.

1.2.3. East Africa Community Vision 2050

According to the East African Community (EAC) Treaty of 1999, which aims to improve the involvement of women in socio-economic development, Article 121 states that Partner States should acknowledge the significant role that women play in the process of sustainable growth and socio-economic transformation. It also asserts that without the full participation of women, it is not possible to implement effective programs for the economic and social development of the Partner States. Additionally, Article 122 recognizes the importance of women as a vital economic link between agriculture, industry, and trade.

The East African Community (EAC) adopted Vision 2050 which encompasses a strategy for Women's Economic Empowerment. EAC recognizes that women experience different trade barriers as compared to men. With this fact, gender-sensitive policies could be considered to ensure that female traders, including importers and exporters, reap the same benefits from improved trade logistics as their male counterparts.

In the Strategic Plan outlining measures for enhanced funding of women MSMEs, building the capacity of women and their enterprises, promoting domestic and international trades, and linking women MSMEs to large enterprises, the Plan will contribute to the achievement of the Vision.

1.2.4. Constitution of Kenya

The Article 27 (3) states that women and men have the right to equal treatment, including the right to equal opportunities in political, economic, cultural, and social spheres. Article 27(6) requires the state to take legislative and other measures, including affirmative action programmes and policies to fully effect the realization of the rights guaranteed under the Constitution. The establishment of WEF is such a measure which is designed to redress any disadvantage suffered by individuals or specialized groups because of past discrimination.

Article 43 (1) emphasizes the right to the highest attainable standard of health, which includes the right to health care services, including reproductive health care; accessible and adequate housing, and to reasonable standards of sanitation; to be free from hunger, and to have adequate food of acceptable quality; to clean and safe water in adequate quantities; to social security; and to education.

The Strategic Plan will help actualize the provisions of the Constitution by initiating gendered programs for women who are both in the formal and informal sector through affordable credit provision, building the capacity of women and their enterprises, promoting domestic and international trade, and linking women MSMEs to large enterprises, to enhance their socio-economic status.

1.2.5 Kenya Vision 2030, Bottom-Up Economic Transformation Agenda and Fourth Medium Term Plan

Vision 2030 is a national strategic development blueprint that seeks to make Kenya a globally competitive and prosperous nation with a high quality of life by the year 2030. It aims to transform Kenya into a newly industrialized, middle-income country providing high quality of life to all its citizens in a clean and secure environment. The vision is anchored on three key pillars: economic, social, and political governance. These pillars are founded on the following parameters:

- Macroeconomic stability.
- Continuity in governance reforms; and
- Enhanced equity and wealth creation opportunities for the poor.

The Social and Economic Pillars of MTP IV (2023-2027) focuses on gender equality and economic empowerment as one of its flagship's projects. The Fund is an intervention under the Social Pillar which aims at investing in the people of Kenya and seeks a just and cohesive society enjoying equitable social development in a clean and secure environment. It is under Sector- Gender, Youth, & Vulnerable Groups pursuing Equity in Access, Control and participation in Resource Distribution for Improved Livelihoods of Women, Youth and Vulnerable Groups. The Fund has made substantial commitments within the Gender, Youth, and Vulnerable groups sub-sector of the MTP IV.

The Fourth Medium Term Plan (MTP - IV) gives priority to Women's Economic Empowerment. It considers the strategy of Women's Economic Empowerment to be a strategic direction that will accelerate the economic empowerment of women. This will harness their capacity to contribute to socio-economic growth, create job opportunities and generate income for the growing population. Empowering women economically is one of the most sustainable strategies towards women's empowerment. This will enable them to contribute to social, economic, and political activities for holistic Development.

The Bottom-Up Economic Transformation Agenda (BETA) 2022-2027 is a national development plan with priorities chosen based on the impact of six key objectives: bringing down the cost of living; eradicating hunger; creating jobs; expanding the tax base; improving our foreign exchange balance; and inclusive growth. These criteria led to the formation of five (5) sectors that are national development priority areas and form the core pillars of this plan, namely: Agriculture; MSME economy; Affordable Housing; Health; Digital Superhighway and Creative Economy.

The Strategic Plan aims to support the national development priority areas. It details strategies that will contribute to growth in the BETA sectors through:

- i) Enhancing funding for women MSMEs;
- ii) Building the capacity of women and their enterprises;
- iii) Promoting domestic and international trade; and
- iv) Linking women MSMEs to large enterprises.

1.2.6 Sector Policies and Laws

The Strategic Plan has been aligned to and integrated with policies within the social protection sector in which WEF operates and has been informed by other documents developed and or

adopted by the State Department for Gender. Key among these policies is Sessional Paper No. 02 of 2019 on the National Policy on Gender and Development (NPGAD) which guides the implementation of gender programmes in eighteen (18) thematic areas aligned to the Kenyan Constitution (2010), Vision 2030 and Medium-Term Plans.

The Sessional paper No. 02 of 2019, identifies a set of factors that act as indicators for measuring the implementation and effectiveness of the gender and development agenda. Government's concerted efforts are made and adequate resources are allocated to the processes of institutionalizing gender equality and the empowerment of women through MDA's like WEF, resulting to a) Equality of treatment and Freedom from Discrimination as provided for under Article 27 of the Constitution's b) Equality in the political, social, economic and cultural development spheres for women; c) Respect for the human rights d) Respect for administrative and judicial regulations; e) Enforcement of statutory, religious and customary laws within the framework of the Constitution; and, f) equipping with relevant gender responsive requirements for planning, budgeting and implementing development programs.

The Strategic Plan is aligned to the sessional paper policy thematic areas particularly on a) Poverty eradication, by increasing and strengthening access to credit opportunities for women and all other special interests' groups through affirmative action initiative, and b) Labour and economy, by building capacities of women's entrepreneurial skills linked with startup capital.

1.3. History of Women Enterprise Fund

The Government of Kenya established the Women Enterprise Fund through Legal Notice No. 147: Government Financial Management (Women Enterprise Fund) Regulations, 2007. The Public Finance Management Act, 2012 categorizes the organization as a National Fund.

Kenya developed its long-term plan, the Kenya Vision 2030, in 2008 and outlined three development Pillars namely Economic, Social and Political pillar. The Fund was entrenched as a Vision 2030 flagship project under the Social Pillar in the Gender, Youth, and Vulnerable Groups sector which seeks to make fundamental changes in four areas namely: Opportunities; Empowerment; Capabilities and Vulnerabilities.

The Fund makes commitments to the Medium-Term Plans hence contributing to the milestones towards Vision 2030, the Bottom-up Economic Transformation Agenda (BETA), and Covid-19 Economic Recovery Strategy. The Fund furthers the provisions of Article 27(6) of the Kenya Constitution 2010 requiring the State to legislate and institute other measures to address equality and freedom from discrimination, including Affirmative Action programmes and policies designed to redress any disadvantage suffered by individuals or groups because of past discrimination.

1.4 Methodology of Developing the Strategic Plan

The Strategic Plan development process was initiated by the Board and commenced with Top Leadership preparing the TORs and appointing the Technical Committee (TC). The Technical Committee, with representatives from various departments, was guided by the Top leadership, an Ad Hoc Committee of the Board, technical experts from the State Department for Economic Planning and non-state partner institutions throughout the participatory process.

Development of the Plan followed a rigorous process that involved a review of documents, discussions, workshop proceedings, and Focus Group Discussions (FGDs). The TC held strategic planning meetings, retreats, and Workshops with key stakeholders to gather relevant planning inputs. It used these inputs to create a draft, which were refined through extensive reviews and discussions with our parent Ministry, Advisory Board, and State Department for Economic Planning and non-state partner institutions. The draft was shared with key stakeholders for their input. A validation workshop for internal and external stakeholders and experts was held to provide final comments and ensure ownership of the plan. The final review was done by the State Department for Economic Planning before finalization and presentation to the Board for approval and dissemination.

CHAPTER TWO: STRATEGIC DIRECTION

This chapter discusses the mandate of the Fund, Vision Statement, Mission Statement, Strategic Goals, Core Values and Quality Policy statement.

2.1 Mandate

Women Enterprise Fund is an affirmative action Fund mandated to promote women economic empowerment. The object and purpose of the Fund is premised on the executive order No.1 2023, Legal Notice No. 147: Government Financial Management (Women Enterprise Fund) Regulations, 2007 and the Public Finance Management Act, 2012. These are:

- i. To provide loans to women enterprises.
- ii. To attract and facilitate investment in micro, small and medium enterprises-oriented infrastructure such as business markets or business incubators that will be beneficial to women enterprises.
- iii. To support women-oriented micro, small and medium enterprises to develop linkages with large enterprises.
- iv. To facilitate marketing of products and services of women enterprises in both domestic and international markets; and
- v. To support capacity building of the beneficiaries of the Fund and their institutions.

2.2 Vision Statement

"A sustainable Fund Empowering Kenyan Women for Social and Economic Development."

2.3 Mission Statement

To facilitate women socio-economic empowerment by providing access to credit, capacity building, market linkages, market infrastructure, and domestic and international trade and through utilization of technological innovations.

2.4 Strategic Goals

The Fund has outlined the following strategic goals:

- i. Improve financial sustainability of the Fund.
- ii. Improve accessibility to loans by women entrepreneurs.
- iii. Enhance financial and entrepreneurial skills for women entrepreneurs.
- iv. Improve market access for women entrepreneurs.
- v. Enhance institutional capacity of the Fund.

2.5 Core Values

The Fund's operations will be guided by the following core values;

- a) Integrity – Honest, trustworthy, fair, responsible, caring, and having the moral courage to do the right thing.
- b) Professionalism- Act consistently in accordance with social standards and moral values of society and constantly apply knowledge, skills, and values.
- c) Equality and Equity - Treat everyone fairly and equally according to their individual needs and recognize their individual differences.

- d) Transparency and Accountability – Act visibly, predictably, and understandably to promote participation and accountability and be answerable for its actions and ensure there is redress when duties and commitments are not met.
- e) Innovation – Embrace creativity and new ideas/solutions to meet new business requirements and market needs, in accordance with its mandates.
- f) Teamwork –Promotes people working together to achieve a common goal to fulfil its mandate.
- g) Diversity and Inclusivity - Offer sense of belonging to women in the country regardless of their background.

2.6 Quality Policy Statement

At Women Enterprise Fund, we are dedicated to delivering exceptional financial services to our clients while adhering to the highest international quality standards. We are committed to continuous improvement, transparency, and the well-being of our clients and stakeholders.

Our Quality Commitments:

- i. Client-Centric Focus: The Fund prioritize the needs and aspirations of our clients, empowering them with accessible and sustainable financial solutions that promote financial inclusion and independence.
- ii. Compliance with ISO Standards: The Fund aims to adhere to ISO standard, e.g., ISO 9001 for quality management guidelines to ensure the highest level of quality and consistency in our operations, products, and services.
- iii. Ethical Practices: The Fund conducts its operations with integrity, transparency, and ethical conduct, fostering trust and confidence among its clients, partners, and employees.
- iv. Continuous Improvement: The Fund aims to improve and enhance its processes, products and services through rigorous in-house measurement and objective evaluations by independent partners.
- v. Client Education: The Fund empowers its clients through financial education and awareness programs, enabling them to make informed decisions and improve their financial well-being.
- vi. Risk Management: The Fund employs robust risk management practices to safeguard its clients' interests and maintain the stability and sustainability of the institution.
- vii. Employee Development: The Fund invests in the professional growth and well-being of its employees, fostering a culture of excellence and innovation.
- viii. Community Engagement: The Fund actively engages with and supports the communities it serves, contributing to social and economic development.
- ix. Compliance: The Fund complies with all the applicable regulatory and statutory requirements.
- x. Environmental and Social Responsibility: The Fund ensures that all its policies and activities are environmentally and socially sustainable.

Our Quality Policy:

The Fund is dedicated to delivering financial services that exceed client expectations. It embraces a culture of quality, innovation, and continuous improvement across all levels of the

organization. It is committed to ethical conduct, client empowerment, stakeholder engagement to drive its mission and to promote financial inclusion.

Quality is Everyone's Responsibility:

At WEF, we believe that quality is not the responsibility of a single department but a shared commitment of every member of our organization. We encourage every team member to contribute to our quality goals and objectives.

CHAPTER THREE: SITUATIONAL AND STAKEHOLDER ANALYSIS

This chapter outlines Situational Analysis, External & internal environment of the Fund, Summary of Strengths, Weaknesses, Opportunities and Threats, governance and administrative structures, resources and capabilities, analysis of past performance, key achievements and lessons learned. It also outlines the stakeholder analysis that identifies all the Fund's stakeholders as well as their needs and expectations.

3.1 Situational Analysis

The Fund's ability to implement her strategies and realize the goals is influenced by various changes in the external and internal environment. An analysis of these two environmental contexts revealed several developments that have direct and indirect impacts on the Fund's operations.

3.1.1 External Environment

The Fund's external environment impacts her success in realizing the mandate. Understanding the developments in the external environment is therefore crucial in appreciating opportunities presented by those developments and mitigating threats.

3.1.1.1 Macro-environment

The macro-environmental factors have been analyzed using PESTEL (Political, Economic, Social, Technological, Ecological, and Legal). This focused on major developments which have both direct and indirect impact on the Fund's overall performance.

Political factors

- i. Political instability in some parts of the country affects our clients' businesses and thus affects their ability to repay loans.
- ii. Inter-governmental integration and national partnership through financial framework provide expanded market access.
- iii. Policies such as Women Agenda and BETA are aligned to core mandates since the Fund's main clients are women at the bottom of the pyramid and hence enhances political goodwill.

Economic factors

- i. Inflation – Inflationary trend affects the cost of doing business on the Funds beneficiaries. It also has a negative impact on the purchasing power of the Beneficiaries' clients. This in turn inhibits women's ability to conduct business thus affecting most of Women Enterprise Fund client's ability to repay loans. Since 2019 to 2022, the inflation rate has been on a steady increase of 5.24% to 7.66%, showing a steady increase in prices and cost of living.
- ii. Unemployment – High unemployment rates have increased the dependability of most citizens thus affecting the women's ability to repay loans. Since 2019 to 2022, the unemployment rate has increased between 5.01% to 5.64% showing increased dependency thus reducing family incomes.

- iii. Interest rates – Conventional financial institutions charge high interest rates which have been increasing steadily from 13% to 16%. This has eaten into the meagre income of women MSMEs.
- iv. Exchange rate- The weakening shilling against the dollar from KSh 101.65 in 2019 to KSh 152.79 in 2023 has affected the cost of doing business.

Social factors

- i. Religion – Requirement for sharia compliant affects uptake of Fund loans by Muslim community since the religion is against charging of interest rates.
- ii. Cultural Norms – Patriarchal cultural beliefs which disempower women participation in economic empowering activities such as borrowing loans and investing.
- iii. Ethics – Clients who borrow with intent of defaulting on loan repayment thus affecting Women Enterprise Fund sustainability.
- iv. Low literacy – Low literacy levels amongst beneficiaries (61% of WEF beneficiaries only have primary school certificate). This negatively affects uptake of digital loans and online training.
- v. Income Distribution – High level of income inequality i.e., 0.1% of the population in Kenya own more wealth than 99.9%, according to Oxfam International. The Fund is targeting the most vulnerable women among the 99.9%.
- vi. Population characteristics – Some parts of the country are sparsely populated hence increased operational costs incurred to deliver the Fund's mandate in these specific areas.
- vii. Insecurity – Some parts of the country experience security threats due to banditry, terrorist attacks and community's' hostilities among others. This hinders provision of Fund's services and recovery efforts in the affected areas.

Technological factors

- i. Digital Accessibility – The availability of mobile technology provides easier access to the Fund's services for women entrepreneurs, making it convenient for them to apply for loans, receive financial education, and access support.
- ii. Innovation – Advancements in communication technology has resulted in wide coverage by mobile network operators leading to a wide market reach by the Fund.
- iii. Social Media and Online Marketing – Utilizing social media and digital marketing offers opportunity to raise awareness and engage with women entrepreneurs, donors, and partners more effectively. The Fund can further utilize digital marketing to link women entrepreneurs with potential markets.
- iv. Data Security and Privacy – The Fund handles sensitive information about women entrepreneurs and financial transactions. Ensuring robust data security measures to protect this information from cyber threats and breaches is essential.
- v. Financial technology – The emergence of financial technology (fintech) solutions can impact the Fund's financial services and lending operations. This includes digital payments, online lending platforms, and blockchain-based financial services.
- vi. Infrastructure and Connectivity – Access to reliable internet and technology infrastructure is vital, especially in underserved areas where the Fund operates. Beneficiaries' connectivity is a factor to consider.

Environmental factors

- i. Climate change – Environmental changes such as Perennial droughts and flooding negatively impact agricultural activities, affecting the income levels and ability to repay loans for borrowers involved in agribusiness.
- ii. Geographical location – Logistical challenges in delivering Fund services in some areas, due to infrastructural challenges such as unreliable mobile, communication and road networks.

Legal factors

- i. Changes in industry regulations e.g., payment systems, savings rules, clarification of the Fund under Finance Act etc. may affect delivery of mandate.
- ii. Data protection – The Data Protection Act which hinders the Funds ability to recover loans through third parties and increases operational cost/data handling costs.

3.1.2: Summary of Opportunities and Threats

The emergent opportunities and/or threats are summarized in table 3.1. Several significant changes have taken place within the external environment. Many of these have impacts on the entire context for WEF, influencing achievement of the strategic objectives.

Table 3.1 Summary of Opportunities and Threats

Environmental Factors	Opportunities	Threats
Political	• Intergovernmental integration and national partnership • Political goodwill, Fund is aligned to BETA & Women Agenda	• Political unrest and disputes disrupt the business environment
Economic	• WEF interest rate of 3.5% P.A is favorable compared to the industry average of 16% P.A • Focus of government on job creation to counter unemployment	• High prices of most commodities due to inflation put pressure on borrower's ability to do business • Weakening shilling against major foreign currencies affects cost of doing business • High unemployment has led increase dependability thus leading to diversion of loan money to cater for basic needs
Social	• Women provide a reliable niche market • The Fund could increase its revenue by charging training fees	• Exploitation of beneficiaries through fraud • Disempowering cultural and religious beliefs inhibits women from participating in economic activities • High unit cost of offering services incurred in sparsely populated areas

Environmental Factors	Opportunities	Threats
Technological	- Digitization and digitalization of Government services - Innovative products and processes - Use of social media to create awareness and for marketing	- Automation increases vulnerability to cyber-attacks - Data protection compliance concerns
Legal	The Data Protection Act strengthens data environment	- Possible litigation when customer data is misused - Changes in labor laws may have adverse implications
Environment	- Financing carbon trade - Financing climate smart agriculture - Attracts green funding	Adverse weather conditions can lead to loss of businesses of women entrepreneurs

3.1.3 Internal Environment

The internal environment is a critical aspect of an organization and a major source of competitive or comparative advantage. The analysis considered variables such as the value chain activities, resource capabilities, skills, competencies, structural design, and culture. The analysis also entailed an assessment of the various functional areas to determine their relative contribution to the Fund's overall performance. The Fund heavily relied on the Resource Based View (RBV) tool to look at the Strengths and Weaknesses.

3.1.3.1 Governance and Administrative Structures

The Fund's Governance is guided by Legal Notice 147 of 2007. Decision-making within WEF follows a hierarchical structure. Strategic decisions, such as the adoption of new programs or policies, are made by the Advisory Board. Operational decisions, on the other hand, are made by the management team under the guidance of the Chief Executive Officer (CEO). The decision-making processes are transparent and participatory, involving relevant stakeholders, including women entrepreneurs and representatives from partnering organizations.

In terms of administrative structures, WEF has established a suitable structure to cover the different functions. These functions work together to support women-owned enterprises by providing access to financial services, training, and mentorship programs, and Markets – both domestic and International. The administrative structures are designed to ensure efficient and effective service delivery to the target beneficiaries.

The Fund is domiciled in the Ministry of Gender, Culture, the Arts and Heritage. Overall, the governance and administrative structures of WEF is well defined and organized, with clear roles and responsibilities for the Advisory Board, Management team, and other staff members as outlined below:

- a. The Advisory Board- The Advisory Board comprises of 11 members, six (6) independent members five (5) representing Principal Secretaries of relevant Ministries namely:

- i. Ministry of Gender, Culture the Arts, and Heritage (1)
- ii. Ministry of Agriculture and Livestock Development (1)
- iii. Ministry of Investments, Trade, and Industry (1)
- iv. The National Treasury and Economic Planning (2)

The Advisory Board oversees the management of the Fund and advises the Cabinet Secretary on its operations. In executing its functions, the Board is operationalized in four committees as:

- i. Finance, Human Resource, and Administration – It supports the Advisory Board in in the effective discharge of its responsibilities of fiscal management, financing strategy, financial policies, establishment of appropriate human resources and administration policies and strategies, appointment and review of performance of the Fund’s secretariat and the system of remuneration and benefits for the staff.
 - ii. Credit – It acts on behalf of the Advisory Board in fulfilling the Oversight of the credit and lending strategies, Oversight of the credit risk and Review of the quality and performance of the Fund’s loan portfolio.
 - iii. Audit and Compliance – It supports the Advisory Board in fulfilling its fiduciary and oversight responsibilities in Financial Reporting, Risk Management, Audit, and Internal Control & Governance processes.
 - iv. Strategy, Innovation and Technology- It oversees implementation of strategies and development of new products, approves partnerships, ad promotes an environment that fosters innovation and technological development.
- b. The Secretariat is Headed by a Chief Executive Officer and is composed of nine (9) departments as outlined below:
- i) Credit – The function is responsible for the management of the entire lending business and maintain high quality loan portfolio.
 - ii) Marketing, Research and Communication – The function is responsible for all marketing, communication, and research matters. It is also tasked to promote domestic and international marketing of goods produced by women owned enterprises; support and facilitate development of infrastructure like decent workspaces and incubation for women owned enterprise; and facilitate and support linkages between women owned enterprises and big corporates, for markets and technology transfer.
 - iii) Human Resource and Training – The function is responsible for ensuring that the Fund has high quality, productive and motivated workforce. It is also tasked with the development of human capital for the organization.
 - iv) Finance and Administration – The function is responsible for financial planning, budgeting, control, and prudential utilization of resources of the organization.
 - v) Audit and Risk – The function is responsible for ensuring compliance with all provisions and standards. It is also tasked with the management of all kinds of risk the Fund may be exposed to.
 - vi) Supply Chain Management – The function is responsible for procurement and disposal according to the relevant provisions of the Procurement Act. It advises the CEO on all matters related to supply chain.

- vii) Monitoring and Evaluation – The function is responsible for tracking all results for the interventions of the Fund. It avails program data to aid top management on decision making and stakeholders to inform progress.
 - viii) Information Communication Technology – The function is responsible for ensuring the Fund has the modern and up-to-date ICT infrastructure and high-level automation of all critical processes.
 - ix) Legal Affairs – The function is responsible for legal, regulatory, and corporate governance matters.
- c. Accountability Mechanisms – WEF is accountable to various stakeholders, including the Parliamentary Committees, Controller of Budget, National Treasury, Parent Ministry, Public Procurement Regulatory Authority (PPRA), women entrepreneurs, and the public. In addition, the Fund is subject to financial audits and reporting requirements set by the Auditor General's Office. Further, the Advisory Board provides oversight and holds the management team accountable for the organization's performance. The CEO is responsible for ensuring that funds are used appropriately and that the organization's objectives are met.

3.1.3.2 Internal Business Processes

The values derived from the Fund's operations target women owned MSMEs both start-up and growth and can be classified into three main categories namely Access to affordable credit (capital), Enhanced Entrepreneurship Capacity and Access to Markets (Domestic and International).

a. Access to affordable credit

In enabling women to access affordable credit the Fund is involved in:

- i. Designing products and corresponding delivery channels
- ii. Sourcing resources (Finance, Human Resources, Technology, and Infrastructure) to facilitate product delivery.
- iii. Prudent financial management to ensure availability of funds for lending.
- iv. Sensitizing potential clients on the loan products offered
- v. Client recruitment and onboarding; and
- vi. Maintaining a healthy Credit Portfolio via structured levels of the Fund

b. Enhanced Entrepreneurship Capacity

To enhance entrepreneurship capacity for women, the Fund is involved in the following processes:

- i. Identifying knowledge gaps among its clients (Existing and potential)
- ii. Developing Training Courses to address the knowledge gaps identified.
- iii. Training of trainers – equipping officers with knowledge and skills to train clients.
- iv. Building partnerships with relevant parties (e.g., Knowledge Centers, KALRO etc.) to facilitate knowledge and skills transfer to clients.
- v. Organizing and facilitating training sessions with clients.

- vi. Coordinating and facilitating peer visits to enable knowledge sharing amongst clients.
- vii. Linking clients with larger enterprises in the same value chain to facilitate knowledge transfer.

c. Access to Markets (Domestic and International)

To improve the participation of women in domestic and international trade, the Fund is involved in the following processes:

- i. Linking clients with large-scale consumers of their products and services.
- ii. Facilitating standardization of client's products to make them more marketable.
- iii. Facilitating clients to showcase their products at trade fairs to enable them to increase market access for their products and services.
- iv. Providing online marketing platforms
- v. Promoting investment in business infrastructure oriented towards women-owned enterprises.

In delivering these values, cross-functional processes like risk management, monitoring and evaluation, regulatory compliance, and reporting is mandatory. This is supported by functional business processes such as marketing, partnership development, human resources management, procurement, finance and administration and ICT.

3.1.3.3 Resources and Capabilities

The Strategic characteristics of the Fund's resources and capabilities were determined by examining them against the criteria of being of being valuable, Rare, Inimitable, Durable and Un-substitutable as shown below:

Table 3.1.3.3 Resources and Capabilities

Resources and Capabilities		Valuable	Rare/ Scarc	Inimitable	Durable	Un-substitutable [DR3]
Assets	Financial Resources	✓	✓		✓	✓
	Physical Resources	✓			✓	
	Technological Infrastructure	✓			✓	✓
Skills	Specialized expertise and skills (Human Capital)	✓			✓	
Capabilities	Strategic Planning	✓			✓	
	Capacity Building and Training	✓			✓	

Resources and Capabilities		Valuable	Rare/ Scarce	Inimitable	Durable	Un-substitutable [DR3]
	Credit Assessment and Risk Management	✓			✓	✓
	Program Design and Implementation	✓			✓	
	Networks and Partnerships	✓			✓	✓
	Innovation and adaptability	✓			✓	✓
Intangibles	Brand and Reputation	✓			✓	✓
	Information Asset (Data)	✓			✓	✓
	Organizational Culture	✓		✓	✓	✓

1. Assets

- i) Financial resources: This is made up of existing financial resources (cash and accounts receivable) and complemented by funding from the exchequer, donations from partners, and revenue from income generating activities. The resources available for lending and investment.
- ii) Physical resources: The Fund has tangible assets which include office space, equipment (computers, printers, servers), furniture and fittings and vehicles. These assets are critical to its operations.
- iii) Technological resources: The Fund has invested heavily in technology and infrastructure such as loan management system (BR.Net), Enterprise Resource Planning (ERP), automated backups, mobile lending, and intrusion prevention system. With this it can harness opportunities arising from use of technology.

2. Skills

- i) Human Capital: This Fund has critical skills, expertise, and knowledge among its ranks. Competent and experienced staff enhance the Fund's ability to make informed lending decisions and provide valuable support to entrepreneurs. This includes:
- ii) Financial Management Skills: Women Enterprise Fund's ability to effectively manage finances, investments, and grants.
- iii) Credit Management Skills: The ability to maintain quality loan book is hinged on the right skills for credit management and debt recovery.
- iv) Marketing Skills: Understanding the needs and preferences of women entrepreneurs and the market dynamics.
- v) Training Skills: The ability to build the capacity of beneficiaries on financial literacy.

- vi) Project Management Skills: The ability to design and implement effective programs to support women entrepreneurs.
- vii) Monitoring and Evaluation Skills: To support measurement of progress of interventions and making data-driven decisions.
- viii) Audit, Risk and Legal Compliance: Expert skills on audit, risk and laws and regulations related to funding and supporting women-owned businesses.

3. Capabilities

- i) Strategic planning: This is a critical capability as it helps the Fund set long-term goals and objectives, allocate resources effectively, and make informed decisions to achieve its mission.
- ii) Capacity building and training: The Fund has a pool of trained trainers who enable it to further its mandate on training.
- iii) Credit Assessment and Risk Management: This capability ensures that loans are provided to businesses with the potential for success while minimizing the risk of default.
- iv) Networking and partnerships: This capability enables the Fund to build partnerships, collaborate on initiatives, and advocate for the interests of women entrepreneurs thus furthering its mandate.
- v) Innovation and adaptability: The Fund is agile catalyst by technology adoption which enables it to stay relevant and responsive to evolving challenges and opportunities.

4. Intangibles

- i) Brand and Reputation: The Fund is known as the apex women organization in the financing sector.
- ii) Information and Data: The Fund handles a lot of data and information which informs lending strategies and program development. It further informs decision-making, resource management, risk management, market research, and stakeholder engagement.
- iii) Organizational Culture: The Fund has a strong culture of professionalism, integrity, and customer focus which has played a significant role in customer retention and growth.

3.1.4 Summary of Strengths and Weaknesses

After a comprehensive analysis of the Governance and Administrative Structure, Internal Business Process and Resources and Capabilities, the emergent strengths and weaknesses are summarized as per Table 3.2.

Table 3.2 Summary of Strengths and Weaknesses

Factor	Strengths	Weaknesses
Governance and Administrative Structures	• Decentralized operations • Functional Secretariat • Strong governance framework	• Lack of succession planning • Sub-optimal organizational structure • Existence of gaps in WEF legal framework

Factor	Strengths	Weaknesses
Internal Business Processes	• Service automation (Digitization and digitalization of lending process, ERP) • Documented policies and procedures	• Inadequate knowledge management • Undiversified products
Resources and Capabilities	• Strategic partnerships • Funding by government • Competent and capable human capital. • Strong organizational Culture	• Inadequate financial resources • Inadequate infrastructure

3.1.5 Analysis of past performance

3.1.5.1 Achievements of the 2019-2024 Strategic Plan

The Strategic Plan 2019-2024 was implemented until June 2023. The aim was to achieve the following strategic outcomes under 3 KRAs:

- i. Enhanced Access to Credit to Contribute to Business Start-ups & Growth, job creation and transform livelihoods.
- ii. Improved Business Development Services to Contribute to Business Starts-ups & Growth, job creation and transform livelihoods.
- iii. Strengthened Strategic Operations

Under enhancing access to credit, the Fund enabled financial inclusion for women through suitable credit products, provision of affordable loans, flexible repayment period, enhanced loan amounts, effective loan recovery approaches, among others. The key milestones include;

- Disbursement of KSh 10,715,757,600 loans to women entrepreneurs.
- Funded 38,409 groups comprising 422,927 members.
- Recorded an average repayment rate of 97%.

Under improving business development services, the Fund built the capacity of women entrepreneurs through various suitable training programmes, enabled market access by facilitating domestic and international trade, linkages, and infrastructure development for women entrepreneurs. Key milestones include;

- Entrepreneurship and financial literacy training for 536,284 beneficiaries and value addition training for 12,389 beneficiaries
- Domestic and international trade facilitation for 40,200 women entrepreneurs
- Linkage for 2,300 women enterprises to large enterprises
- Incubation for 2,900 women entrepreneurs

Under strengthening strategic operations, the Fund was able to improve its ICT infrastructure, strategic assets, policy environment, risk and governance frameworks and partnership management. Key milestones include;

- Implemented ERP system, short code *601#, SMS Banking, EFT for Loan disbursements. In addition, enhanced security posture and improved core banking system.
- The Fund acquired a spacious office block at Britam Towers, 4 New additional vehicles, an offsite archival space, implementation of an EDMS Scheduled.
- Developed/reviewed and implemented, Business Continuity Plan, Gift Policy, Whistle blowing policy, communication policy, Human Resource instruments, ISMS policies and risk management frameworks.
- Partnership with the media and influencers, county governments, Universities, and donor organization.
- Institutionalized performance contracting and performance appraisals systems.
- Continuous staff development with annual training to all staff; and
- Developed/reviewed and implemented corporate governance instruments.

3.1.5.2 Challenges

The attendant and extraneous factors that hindered the achievement of some set targets of the previous strategic plan were:

- i. High loan default affecting availability of resources to revolve and reach more women.
- ii. Inadequate financial resources hinder fulfilment of critical operational requirements such as delivery of services, improving staff terms of service and acquisition of critical assets.
- iii. Weak legal status makes it difficult to attract resources as an independent agency.
- iv. Business disruptions during the electioneering period led to economic uncertainty, affecting the overall economic outlook.
- v. Covid 19 pandemic adversely affected business operations leading to restructuring of loans.
- vi. Revenue shortfalls and cashflow challenges threatened the sustainability of the Fund.
- vii. Droughts and flooding in some parts of the country affected client's ability to repay loans.
- viii. Insecurity in some parts of the country affected clients' businesses.
- ix. High inflation rate and increase in consumer price index affecting the purchasing power of women negatively impacting loan repayment.
- x. Fraudulent activities lead to loss of funds and dent the Fund's reputation.

3.1.5.3 Lessons Learnt

- i. Goodwill by stakeholders was essential in implementation of the Strategic Plan; this is evidenced through the various MOUs signed with Counties and other key Partners that assisted the Fund meet its objectives.
- ii. Provision of good working environment, working tools and improvement of terms of services enhanced staff morale.
- iii. Automation of processes enhanced service delivery i.e., acquisition and implementation of ERP.
- iv. Inadequate framework and structures for resource mobilization impacted the Fund's resource mobilization potential.
- v. Capacity building, mentorship, and medical education cement financial access as women's empowerment enablers.

3.2 Stakeholder Analysis

Women Enterprise Fund has various stakeholders who shape its strategic direction. In developing this Strategic Plan, an analysis of the stakeholder interests was carried out as shown in table 3.3.

Table 3.3 Stakeholder Analysis

S/NO	Stakeholder	Role	Expectation of the Stakeholder	Expectations of WEF
1	Women Entrepreneurs	Customers of the Fund	- Efficient service delivery - Suitable products and services.	- Compliance with the terms and conditions. - Utilization of loans in lawful businesses.
2	Advisory Board	Oversight	- Adequate tools and information to perform the role. - Independence for objective decisions.	- Provide Strategic Leadership/ Direction - Effective accountable, and transparent systems, policies, and best practices in corporate governance
3	Staff	Implementation of mandates and delivery of services to customers.	- Training & Development - Conducive work environment - Competitive terms of employment - Adequate budget, working tools, equipment, and materials	- Provide manpower - Adhere to Principles of good governance and national values. - Adhere to rules, polices, regulations, and value of WEF
4	Parent Ministry	Administration and policy	- Satisfactory performance of the Fund's mandate - Prompt, timely, and accurate reports - Prudent use of allocated resources - Alignment of Fund mandates with ministry mandates	- Support Budget allocation and budget follow up. - Effective linkage with National Government - Formulation of Policies and policy guidelines
5	The National Treasury and Economic Planning.	- Public finance management oversight - Resource allocation	- Fulfillment of Fund's mandate - Prompt, timely, and accurate reports - Prudent use of allocated resources	- Adequate budget allocation - Timely release of exchequer - Providing policy guidelines

S/NO	Stakeholder	Role	Expectation of the Stakeholder	Expectations of WEF
6	The Ministry of Agriculture and Livestock Development. The Ministry of Investments, Industry and Trade.	• Represented in the Board • Strategic guidance on their sectors	• Prompt, timely and accurate information • Intergovernmental collaboration	• Technical and strategic guidance in the specific sectors they represent. • Development of policies rules and regulations to support Women Enterprise Development
7	The National Assembly, Parliamentary Committees on Labor and Social Welfare, and Special Funds	• Legislation enactment • Oversight • Budget approval and resource allocation	• Fulfillment of the Fund's mandate • Implementation of National Agenda • Prompt, timely, and accurate reports • Prudent financial management	• Support on resource allocation and regulations • Collaborations in executing Fund's mandates in constituencies.
8	Office of the Auditor General	Oversight	• Adherence to relevant guidelines and compliance with Public Finance Management Act and the other regulations. • Cooperation and proper disclosure during audits	• Support towards strengthening internal controls
9	Suppliers	Provision of goods and services	• Fairness and transparency in tender selections process in conformity with (PPADA) • Timely payments	• Provision of timely and quality services anchored on fair practice
10	Special Interest Groups- Non-State Actors/Civil Society Organizations	• Partnerships and collaborations • Advocacy and awareness creation	• Full implementation of MOUs and collaborations agreements and timely reporting. • Funding programs advocating for the promotion of gender equality and freedom from discrimination.	• Effective participation in implementation of MOUs and collaboration agreements • Effective communication
11	Mobile network operators and system providers	Provide platform for Lending and Savings products	• Reliable information/data • Timely payment for services	• Reliable and steady service • Protection of Consumer data
12	The Media	• Publicity • Report and disseminate information.	• Business relationships and collaboration.	• Inform and educate the public. • Offer platform for marketing and advertisement

S/NO	Stakeholder	Role	Expectation of the Stakeholder	Expectations of WEF
13	Affirmative Action Funds (UWEZO Fund, YEDF, Hustler Fund, & NGAAF)	Collaboration	• Sharing of information and collaboration. • Promote entrepreneurial skills of Affirmative Action Groups.	• Information/data sharing and collaborations.
14	Resource Partners	• Provision of donations and grants • Partnerships	• Timely and accurate reports • Ethical implementation of funded projects • Transparency and accountability	• Resource support and mobilization

CHAPTER FOUR: STRATEGIC ISSUES, GOALS AND KEY RESULT AREAS

This chapter covers the strategic issues, strategic goals to address the issues and key result areas.

4.1 Strategic issues

The fundamental challenges that are affecting the Fund's mission, mandates, clients, cost, financing, and management are as detailed below:

- i. **Sustainability of the Fund** – The Fund has over the years reported an operational deficit threatening its sustainability. This is attributable to inadequate exchequer allocation, high loan default, inadequate donor support, and high operating costs. This affects revenue generation and continued disbursement as desired.
- ii. **Loan Accessibility** – The Fund experienced low accessibility with just over 80,000 women groups benefitting in the last 15 years. This can be attributed to limited loan delivery channels, low visibility, underdeveloped infrastructure in some regions and lack of diversified products.
- iii. **Financial Literacy and Entrepreneurial Skills** – Majority of the Funds beneficiaries are women above 35 years with lower levels of formal education. 61% of WEF beneficiaries only have primary school certificate. This implies that the target beneficiaries have a very high need for capacity building.
- iv. **Access to Market by women entrepreneurs** – MSMEs face difficulties in accessing markets due to high cost of accessing markets, stringent laws, and other operational issues such as inaccessibility of trade channels. The situation is made worse for Women traders who are not able to cope with the harsh environment unlike their male counterparts.
- v. **Institutional Capacity** – The Fund has been operating with inadequate human capital, policies, processes, and technology which has hindered the institution from achieving optimal operational efficiency.

4.2 Strategic Goals

In solving the strategic issues, the Fund will adopt the following goals in the order of the strategic issues highlighted above:

- i. **Improve financial sustainability of the Fund**– Financial Sustainability is critical for any organization to continue offering services to its clients. To achieve sustainability the Fund will seek to be more efficient in managing operation costs, minimize non-performing loans, generate enough revenues (AIA) from loans and other chargeable services.
- ii. **Improve accessibility to loans by women entrepreneurs** – The agenda of the government in forming Affirmative Funds like WEF is to ensure an inclusive financial landscape. Fundamental to this are initiatives that enable inclusion of women in the financial services. The Fund will develop strategies to ensure women in any part of the country can access the loans without unnecessary bureaucracy. Moreover, the Fund aims at diversifying the products and services to serve a wider market.
- iii. **Enhance financial and entrepreneurial skills for women entrepreneurs**– Training for women MSMEs facilitates SMEs expansion and enhances profitability, productivity, and competitive advantage. Financing of MSMEs needs to be

complemented with training to improve entrepreneurial capacities of the women accessing credit. The Fund will channel out different training services on various platforms.

- iv. **Improve market access for women entrepreneurs**– Some of the interventions critical in enabling market access include domestic and international trade facilitation, coordination of linkages with major market players, and provision of commercial infrastructure among others. The Fund aims to support women MSMEs in these three areas to achieve their marketing goals.
- v. **Enhance institutional capacity of the Fund** – The Fund intends to put in place measures to Strengthening Internal Capacity for efficient and effective delivery of the mandates.

4.3 Key Results Areas (KRAs)

The five goals identified by the Fund are each linked to a Key Result Area to give intended outcomes. These KRAs are:

- i. Fund Growth
- ii. Financial Inclusion
- iii. Capacity Building
- iv. Market Accessibility
- v. Institutional Strengthening

Table 4.1 Strategic Issues, Goals and KRA

Strategic Issues	Goals	Key Results Areas (KRA)
S1) Sustainability of the Fund	G1) Improve financial sustainability of the Fund	KRA1) Fund Growth
S2) Loan Accessibility	G2) Improve accessibility to loans by women entrepreneurs	KRA2) Financial Inclusion
S3) Financial literacy and entrepreneurial skills	G3) Enhance financial and entrepreneurial skills for women entrepreneurs	KRA3) Capacity Building
S4) Access to market by women entrepreneurs	G4) Improve market access for women entrepreneurs	KRA4) Market Accessibility
S5) Institutional Capacity	G5) Enhance institutional capacity of the Fund	KRA5) Institutional Strengthening

CHAPTER FIVE: STRATEGIC OBJECTIVES AND STRATEGIC CHOICES

This chapter outlines the Funds' strategic objectives and strategic choices to aid in achieving its goals. This will be based on the assessment of the strengths and weaknesses of the internal environment as well as the opportunities and threats of the external environment.

5.1 Strategic Objectives

The formulation of the strategic objectives for each KRA followed the Sustainable Balanced Scorecard factors of financial performance, customer focus, internal business processes, learning and growth. A strategy map was developed for each strategic theme to ensure a complete strategy to achieve each strategic result and merged into the final organizational Strategy Map. It shows the cause-and-effect relationships of objectives across the four perspectives, telling the story of how the Fund will achieve the results desired. Figure 5.1 shows the Strategy Map.

Figure 5.1 Strategy Map

The Strategic objectives developed for each KRA are presented in the table 5.1 Outcome and annual projections.

Table 5.1 Outcome and annual projection

			Projections				
Strategic Objective	Outcome	Outcome Indicator	Year1	Year2	Year3	Year4	Year5
KRA1 Fund Growth							
SO1.1 To grow the Fund value to KSh. 10B	Growth in capitation	Fund growth in KSh	4.5B	5.8B	7.2B	8.6B	10B
KRA2 Financial Inclusion							

Strategic Objective	Outcome	Outcome Indicator	Projections				
			Year1	Year2	Year3	Year4	Year5
S02.1 To expand financial access for 5 million women entrepreneurs	Increased access to loans	No. of women entrepreneurs accessing loans	0.5M	1.5M	2.5M	3.5M	5M
KRA3 Capacity Building							
S03.1 To enhance capacity for 515,000 women entrepreneurs on financial literacy, Value addition, AGPO and Business Counselling	Women possess better capacity to manage their businesses	No. of women entrepreneur's capacity built	52,000	154,700	257,900	361,100	515,000
KRA 4 Market Accessibility							
S04.1 To improve market access for 105,500 women entrepreneurs through linkages, market facilitation and decent workplace	Women benefiting from improved market access	No of women accessing markets	10,100	36,450	62,750	84,100	105,500
KRA 5 Institutional Strengthening							
S05.1 To strengthen human capital, policies, processes, and technology	Enhance institutional capacity	Level of implementation of the listed capacity areas	10%	30%	50%	75%	100%

5. 2 Strategic Choices

This plan has selected/chosen strategies to be pursued in addressing the different strategic objectives.

Table 5.2 Strategic Objectives and Strategies

KRAs	Strategic Objectives	Strategies
KRA1: Fund Growth	To grow the Fund value to KSh. 10B	S1 Timely and full loan repayment S2 Resource mobilization and revenue growth S3 Cost Reduction
KRA 2: Financial Inclusion	To expand financial access for 5 million women entrepreneurs	S1. Product diversification S2. Diversify marketing. S3. Diversify delivery channels

KRA 3: Capacity Building	To enhance capacity for 515,000 women entrepreneurs on financial literacy, Value addition, AGPO and Business Counselling	S1. Financial literacy, business development, digital literacy training S2. Value addition training S3. AGPO Capacity Building S4. Business counselling, mentorship, and coaching
KRA 4: Market Accessibility	To improve market access for 105,500 women entrepreneurs through linkages, market facilitation and decent workplace	S1 Domestic and international trade facilitation S2 Linkages for women entrepreneurs with large enterprises S3 Incubation of women enterprises.
KRA 5: Institutional Development	To strengthen human capital, policies, processes, and technology	S1 Systems and policies alignment S2 HR alignment and modernization S3 Governance and risk management

CHAPTER SIX: IMPLEMENTATION AND COORDINATION FRAMEWORK

The section presents the implementation plan, action plan, annual work plan and budget, performance contracting, coordination framework, institutional framework, staff establishment, skills set and competence development, leadership, systems and procedures, and risk management framework.

6.1 Implementation Plan

The Implementation Plan describes how the Strategic Plan will be operationalized, provides an exhaustive description of the various components which includes the action plan, budgeting, and performance contracting.

6.1.1 Action Plan

The Action Plan constitutes the Strategic Issues, Strategic Goals, KRA, Outcomes, Strategic Objectives, Strategies, Key Activities, Expected Outputs, Output Indicators, Annual Targets, Annual Budgets and Responsibility for execution of the activities. The Plan is presented as an Implementation Matrix, see Appendix I.

6.1.2 Annual Workplan and Budget

The annual work plans will be extracted and costed from the Action Plan and inform the annual budgets. The annual work plans will be extracted in time for the annual budgets. Activity-based costing will be adopted in the development of the annual budgets. The costed annual work plan for 2023/2024 is appendix II.

6.1.3 Performance Contracting

The performance contract for FY 2023/2024 was guided by the costed Annual Work Plans in Section 6.1.2.

6.2 Coordination Framework

The overall responsibility for implementation of the Strategic Plan rests with the Chief Executive Officer of the Fund. Each implementing unit will be responsible for the coordination, implementation, and reporting of the assigned activities in the implementation matrix. The functional and operational units will derive their respective work plans from the implementation matrix. The strategic plans for departments will cascade through work plans developed by the respective Heads of departments. The work plans will form the basis for target setting between the staff and their supervisors.

Pre-implementation Activities:

- i. Heads of departments will develop annual work plans aligned to the strategic plan, to ensure strategic cohesion.
- ii. Heads of departments will communicate the plan to all staff in their department and ensure that each person understands their role in the plan and that they are familiar with the monitoring and evaluation mechanisms established by the Fund through the M&E department.
- iii. Heads of departments will liaise with staff responsible for any key result areas (KRA) to build a work plan for the achievement of the KRA and evaluate their needs and any resources and training that may be necessary.

Implementation Activities:

- i. Heads of departments will monitor activities as they roll out and provide guidance and mentorship where necessary. They will review the plan performance each month and prepare a quarterly report.
- ii. Heads of departments will endeavor to keep plan performance delays and negative variances in check and take any necessary action in consultation with the CEO to ensure timely plan performance.
- iii. Heads of department will take stock of monthly achievements as well as the cumulative achievements realized and present this information to the M&E department.
- iv. Heads of departments will liaise with the M&E department to ensure that performance indicators and other evaluation parameters are clear to all and are uniformly applied and evaluated.
- v. Departments providing internal services to other departments will ensure that they provide these services in a timely manner to avoid derailing other departments' plans. Service Level Agreements will be established to ensure timeliness and accountability.

Post-implementation Activities:

- i. The management will carry out a comprehensive review of the Strategic Plan at the end of each financial year and establish priorities and key result areas for the next financial year.
- ii. Heads of departments will evaluate plan performance in the light of identified priorities and will determine from time to time whether any changes in the objectives are warranted.
- iii. Heads of departments will prepare the annual rolling plans at the end of each year, to establish detailed departmental targets for subsequent years in line with the overall Strategic Plan.

6.2.1 Institutional Framework

The Fund is domiciled under the Ministry of Gender, Culture, the Arts and Heritage with the Principal Secretary as the administrator. The Advisory Board will be responsible for overseeing the management of the Fund and advising the Cabinet Secretary generally on the operations of the Fund.

The Fund's organizational structure will play an important role in the successful implementation of this Strategic Plan. Therefore, a new structure as per figure 6.2 appendix III is adopted with the Chief Executive Officer as the overall in-charge of the day-to-day operations and is supported by four directorates and five divisions.

The directorates are: Credit, Business Development, Finance & Accounts, and HR & Administration. The Divisions include; Legal Services, Internal Audit, Supply Chain Management, Corporate Communications & Customer Care and Research, Strategy & Quality Assurance.

The implementation of this Strategic Plan will be supported by an appropriate regulatory and policy environment. The Fund will continuously review policies related to Human Resources, ICT, Credit, Resource Mobilization, Finance, Monitoring & Evaluation, Audit & Risk and other relevant policies, to align with this Plan and the Government Priority Areas.

6.2.2 Staff Establishment, Skills Set and Competence Development

The staffing levels, skills sets and competencies required for effective and efficient implementation of the strategic plan are outlined. The Fund has evaluated the existing staffing levels, skills sets and competences to ascertain their adequacy and relevance towards supporting implementation of the strategy. The optimal staff levels are as indicated in Tables 6.2 and 6.3.

Table 6.2 Staff Establishment

Functional Area	Approved	In-post	Optimal	Variance
Technical Directorates/Divisions				
Chief Executive Officer	1	1	1	0
Credit Directorate	358	333	292	(41)
Business Development Directorate	4	3	12	9
ICT and E-Services Division	3	3	10	7
Research, Strategy and Quality Assurance Division	2	2	8	6
Sub Total	368	342	323	(19)
Support Services				
Human Resource and Administration Directorate	11	11	36	25
Finance and Accounts Directorate	6	5	10	5
Corporate Communication and Customer Care	0	0	10	10
Supply Chain Management Division	2	2	4	2
Audit and Risk Management Division	4	2	4	2
Legal Affairs Division	1	1	3	2
Sub Total	24	21	67	46
Total	392	363	390	27

Table 6.3 Skills Set and Competence Development

Cadre	Skills set	Skills Gap	Competence Development
Credit Directorate	Credit management	Debt collection, digital lending	Debt collection, digital lending
Business Development Directorate	Client Training, Product Marketing, Resource Mobilization	-	-
ICT and E-Services Division	System development and administration	Business Intelligence, Digital lending, cyber security	Business intelligence, digital lending, cyber security
Research, Strategy and Quality Assurance Division	Research, Monitoring and Evaluation	Planning, Risk Management, and Quality assurance	Planning, Risk and Quality assurance
Human Resource and Administration Directorate	Human capital management	HR analytics, performance management, fleet management	HR analytics, fleet management, Performance management
Finance and Accounts Directorate	Financial Management	Accounting	Accounting

Cadre	Skills set	Skills Gap	Competence Development
Corporate Communication and Customer Care	Marketing	Public Relations, Communication, Customer Care	Public Relations, Communication, Customer Care
Supply Chain Management Division	Supply Chain Management	E-Procurement	E-Procurement
Internal Audit Division	Auditing	Investigations, System Audit	Investigations, System Audit
Legal Affairs Division	Legal	Corporate governance	Corporate governance

6.2.3 Leadership

To execute the Strategic Plan, Strategic Theme Teams have been constituted with clear terms of reference. The Strategic Theme Teams have been aligned to the Strategic Issues for purposes of responsibility and accountability in leading and coordinating the execution of strategic activities relevant to the KRAs. The Strategic Theme Teams include financial management/Fund Growth, Financial inclusion/ Credit Management, Business Development, and Institutional strengthening. The team composition and Terms of Reference are in Appendix IV.

6.2.4 Systems and Procedures

For effective implementation of the strategic plan, the Fund will review internal policies, systems, processes, and technology to align its operations to the overarching goals and objectives. To enhance efficiency and consistent control of business processes, standardize product and service delivery quality, and ensure continuous improvement, the Fund will implement a Quality Management System based on ISO 9001:2015. To improve the information security posture and enhance business continuity, the Fund will pursue ISO 27001:2022 certification. Compliance with the policies, processes, and standards will remain emphasized.

To keep the policies, systems, processes, and technology up to date, ad hoc reviews will be conducted to reflect any changes in strategic direction.

6.3 Risk Management Framework

The Strategic Plan identified, described, and categorized the risks that may hinder the realization of the strategic plan. Further, the risks were prioritized based on the likelihood of occurrence and expected impact with suggested actions for mitigation, monitoring, and reporting. The risks associated with the implementation of the strategic plan are identified, rated, and suggested mitigation strategies are summarized in Table 6.4.

Table 6.4 Risk Management Framework

S/ No	Risks	Risk Likelihood (L/M/H)	Severity (L/M/H)	Overall Risk Level (L/M/H)	Mitigation Measure (s)
a.	External interference	M	Medium	Medium	The Fund leadership shall continuously engage key stakeholders such as the parent Ministry, the National Treasury, Politicians etc. through structured dialogue to develop a culture of mutual working relationship and trust.
					The Fund's leadership shall respond in a timely manner to any attempts of interference.
					Increased outreach to enhance public confidence.
b.	Non-compliance with statutory requirements	L	L	Low	Legal audit shall identify and familiarize with relevant legal provisions.
					Put in place enforcement mechanisms to ensure compliance.
c.	Inadequate performance of the actors e.g., social services and chiefs.	M	M	Medium	Take a lead in strengthening collaborative approach to assist other institutions e.g., social services and chiefs in improving their service delivery.
d.	Fraud or perceived corruption	M	M	Medium	Participate in enforcing implementation of Code of Ethics across the Fund's operations.
					The Fund has established a zero tolerance to corruption culture
					The Fund has established corruption prevention structures such as the Corruption Prevention Committee (CPC) and CPC subcommittee. The Fund has also drafted and implemented a corruption prevention policy, whistle blowing policy and gift Policy.
					The Fund has automated key function such as loan lending through digitalization, Human Resources and Training, Supply Chain Management and Finance Functions by implementing Navision ERP
					Segregation of conflicting duties

S/ No	Risks	Risk Likelihood (L/M/H)	Severity (L/M/H)	Overall Risk Level (L/M/H)	Mitigation Measure (s)
					Prioritize implementation of audit report recommendations.
e.	Inadequate cooperation from stakeholders	L	L	Low	Increase outreach strategies and develop partnership programs. Adopt participatory planning, leadership, or program/policy implementation
f.	Non/delayed delivery of programs and projects Due resistance to change during implementation of the strategic plan	L	L	Low	Prioritize development and implementation of change management strategies. Internal and external sensitization on the aspirations of the Fund Embrace participatory management by involving all the stakeholders in the SP development to get buy-in from all stakeholders.
g.	Inadequate Finances	H	H	High	Intensify lobbying for adequate and timely disbursement of funds from exchequer. Outsource services that are not core functions of the Fund. Intensify recovery of loans in both the digital platform and the old loan channels Heighten resource mobilization activities Rationalization of expenditures.
h.	Competition from other financial institutions	H	H	High	The Fund has structured its loans at a lower interest rate than the market which makes them attractive. The Fund has concentrated on a market niche of lending to women only.
i.	Loan default affecting cash flows	H	H	High	Intensive follow up strategies Implement geo-mapping of digital loan borrowers
j.	Risk of cyber-attacks	L	H	Medium	The Fund has put in place a robust intrusion prevention system The Fund sensitizes staff on cybersecurity risk and method used by cybercriminals to perpetuate their attack
k.	System downtime	M	M	Medium	System maintenance and backup system

CHAPTER SEVEN: RESOURCE REQUIREMENTS AND MOBILIZATION STRATEGIES

This chapter covers the resource requirements and mobilization strategies the Fund will employ in carrying out its strategic objectives. Mobilizing the necessary resources and allocating them effectively is crucial for successful implementation of this strategic plan.

7.1 Financial Requirements

The Fund has estimated the resources required and prepared a budget for the implementation of the action plan on a Financial Year basis. The KRAs and administrative costs have informed the total annual budget as demonstrated in Table 7.1.

Table 7.1 Financial Requirements for Implementing the Strategic Plan

Cost Item	Projected Resource Requirements (KSh Mn)					
	Year 1	Year 2	Year 3	Year 4	Year 5	TOTAL (KSh Mn)
Fund Growth	27.9	37.3	32.1	35.465	28.3	161.065
Financial Inclusion	3,502.75	6,603.45	6,603.00	6,605.00	6,700.00	30,014
Capacity Building	8.2	23.1	14	14	15.5	74.80
Market Accessibility	0.5	4.55	4.55	4.55	4.55	18.70
Institutional Development	25.5	25.5	20	20	20	111.00
Administrative Cost	535	1,004	1,001	1,002	1,015	4,557
TOTAL	4,099.58	7,697.99	7,674.70	7,680.87	7,783.60	34,936.73

The resource gaps have been determined by demonstrating the variances between resource requirements versus available resources (Table 7.2).

Table 7.2: Resource Gaps

Financial Year	Estimated Financial Requirements (KSh Mn)	Estimated Allocations (KSh Mn)	Loans Repayment (KSh Mn)	Variance (KSh Mn)
Year 1	4,099.58	479.4	3,500	120.18
Year 2	7,697.99	479.4	4,000	3,218.59
Year 3	7,674.70	499.4	4,000	3,175.30
Year 4	7,680.60	650	4,500	2,530.60
7783	7,783.60	800	4,500	2,483.60
Total	34,936.46	2,908.20	20,500.00	11,528.26

NOTE: Resource allocations for the first three (3) years have been guided by the Medium-Term Expenditure Framework (MTEF) Budget estimates, while the two (2) outer years have been projected based on allocation trends. In addition, the Fund anticipates an additional exchequer allocation of 9 billion commitment by the Executive and will pursue resource mobilization.

7.2 Resource Mobilization Strategies

The resource gaps have informed resource mobilization strategies the Fund will pursue. Specifically, we have outlined strategies as per the financing options in the regulation as follows:

- i) Exchequer – The Fund is financed 100% by the Exchequer through annual budget appropriation, hence the most important source of funding. The Fund will therefore develop a framework for engagement with the National Treasury.
- ii) Grants and donations – The Fund will develop and implement a framework and resource mobilization strategy to net donor grants. This will include the creation of partners' profiles to identify their funding mechanisms, budgetary cycles, policy priorities and potential opportunities for funding. In addition, the Fund will foster Public-Private Partnership for women-owned projects.
- iii) Income generated from the proceeds of the Fund – The Fund will maximize revenue collection by reviewing its pricing policy for financial services and levying competitive charges on non-financial services. The Fund will also invest excess liquidity in short-term securities to earn interest and other income.
- iv) Loan repayments – The main source of cashflow for the Fund is loan repayments hence the Fund will match shilling for shilling through effective loan recovery strategies to sustain the revolving funds mechanism to meet the high loan disbursement resource requirements.

7.3 Resource Management

Efficiency, effectiveness, and prudence in utilization of resources will be crucial in bridging the resource gap. The guidelines by the National Treasury will guide management of resources. The Fund will ensure value-for-money by inculcating best practices and by eliminating bottlenecks and red tape in its systems and processes.

WEF will pursue effective resource management to optimize the allocation and efficient utilization of its resources to support the strategies outlined. Emphasis will be on resource mobilization and oversight on expenditure. The measures for implementation include:

- a) Development and implementation of a detailed budget that aligns with the priorities and activities as set out in the MTEF.
- b) Prioritization of resources allocation based on the level of importance, urgency and expected impact of interventions.
- c) Development and implementation of annual work plans that align the budget with specific activities, timelines, and desired outcomes.
- d) Monitoring expenditure, tracking financial and programme performance for adherence to budgetary guidelines.
- e) Effectively manage the Fund's human resources to maximize productivity. This includes implementation of human resource manuals and procedures which provide for workforce planning, recruitment, training and development, performance management, and succession planning.
- f) Collaboration with other government agencies, civil society organizations, and development partners to share resources, expertise, and best practices.

- g) Utilization of technology to effectively streamline processes, improve efficiency, and enhance resource management.

CHAPTER EIGHT: MONITORING, EVALUATION AND REPORTING FRAMEWORK

This chapter details the monitoring framework, the performance standards, the evaluation framework, the reporting, and feedback mechanism.

8.1 Monitoring Framework

The monitoring framework provides the basis for review of progress on implementation of the Fund's strategic plan 2023-2027. Monitoring the implementation of the plan will help to detect potential bottlenecks and make the necessary adjustments. Monitoring will involve collecting and analyzing information relating to the various indicators and using the information to inform key decisions for corrective action. Implementation units, guided by focal persons, will monitor the implementation of the Strategic Plan through regular meetings and reports. Activities that will require re-scheduling or revision of targets will be adjusted through a re-negotiated process with top management. The Monitoring & Evaluation department will coordinate the monitoring, evaluation, and reporting of this Strategic Plan.

The Fund has:

- i. Determined key performance indicators from the action plan implementation matrix for tracking the outputs and outcomes (Table 6.1).
- ii. Established the baseline data on indicators to be monitored.
- iii. Planned for continuous improvement on the targeted results through regular reviews and reports. The Fund will document lessons learnt and adopt best practices which will inform reallocation of resources to ensure achievement of set targets.

8.2 Performance Standards

The Fund has adopted a monitoring and evaluation system that embraces a culture of performance management covering all staff, irrespective of their levels. This enables staff to appreciate their linkage and contribution to the implementation of the Strategic Plan and the attainment of the Fund's objectives. For the implementation of the plan to be effective, the M&E department will continue to be an integral part of the Fund's performance contracting system. The performance standards for this Strategic Plan will be SMART i.e., specific, measurable, achievable, relevant and time bound.

8.3 Evaluation Framework

Evaluation of the Strategic Plan will involve a systematic and objective process of examining the relevance, effectiveness, efficiency, and impact (both intended and unintended) of the goals and respective KRAs. Evaluation will be done through formal surveys and assessments and will look at what will be accomplished against the set targets. Evaluation will be the responsibility of the middle and top management of the Fund. Two major evaluation activities will be undertaken. These are mid-term evaluation and end-term evaluation.

Table 8.1: Outcome Performance Matrix.

Key Result Area	Outcome	Outcome Indicator	Baseline		Target	
			Value	Year	Mid-Term Period	End-Term Period
KRA1: Fund Growth	Growth in capitation	Fund growth in KSh	4.4B	2023	7.2B	10B
KRA2: Financial inclusion	Increased access to loans	No. of women entrepreneurs accessing loans	1.1M	2023	3.6M	6.1M
		Amount disbursed to women entrepreneurs	26.7B	2023	41.7B	56.7B
KRA3: Capacity building	Women possess better capacity to manage their businesses	No. of women entrepreneur's capacity built	1.7M	2023	1.96M	2.22M
KRA4: Market accessibility	Women benefiting from improved market access	No. of women accessing markets	45,000	2023	97,750	150,500
KRA5: Institutional development	Enhance institutional capacity	Level of implementation of the listed capacity areas	Multiple	2023	50%	100%

8.3.1 Mid-Term Evaluation

The Fund will conduct a midterm evaluation of this strategic plan to examine progress towards achievement of the set target. The evaluation will be conducted halfway through its implementation timeline.

Below is a detailed description of how and when this will be undertaken:

- i. **Timing:** The mid-term evaluation will be undertaken at the midpoint of the implementation of the strategic plan.
- ii. **Evaluation Team:** A technical committee shall be appointed to conduct the mid-term evaluation exercise. The team will include stakeholders from different departments and the State Department for Economic Planning with expertise in the evaluation processes.
- iii. **Evaluation Scope:** The mid-term evaluation will focus on assessing the progress made in achieving the goals and objectives outlined in the Strategic Plan. It will also examine the implementation of strategies, activities, and resource allocation to determine their effectiveness.
- iv. **Data Collection:** The technical committee will gather relevant data through various methods, such as surveys, interviews, document reviews, and quantitative analysis. They will collect both qualitative and quantitative information to gain a comprehensive understanding of the plan's performance.
- v. **Evaluation Criteria:** The evaluation criteria will be established beforehand, aligned with the goals and objectives of the Strategic Plan. These criteria will serve as a benchmark

for measuring progress and success, allowing for a consistent and objective evaluation process.

- vi. **Analysis and Reporting:** Once all the data is collected, the technical committee will analyze it to assess the progress and effectiveness of the Strategic Plan. They will identify strengths, weaknesses, challenges, and opportunities encountered during the implementation process.
- vii. **Feedback and Recommendations:** Based on the findings of the evaluation, the committee will prepare a comprehensive report outlining their conclusions, recommendations, and suggested adjustments or improvements to the Strategic Plan. These recommendations will help guide future actions and ensure the successful achievement of the plan's goals.
- viii. **Stakeholder Engagement:** During the mid-term evaluation, the committee will engage relevant stakeholders, such as employees, managers, and external partners. Their input and feedback will provide valuable insights and perspectives that contribute to a comprehensive evaluation. By undertaking the mid-term evaluation using these steps, the Fund will gain valuable insights into the progress and effectiveness of its Strategic Plan. This evaluation will allow for timely adjustments, proactive problem-solving, and ensure the plan remains aligned with evolving circumstances and priorities.

8.3.2 End-Term Evaluation

The Fund will conduct an end-term evaluation of this strategic plan to determine whether the plan's objectives have been met and if adjustments or revisions are needed for future strategic planning. This process, which will be conducted at the end of the 5-year implementation period, will be undertaken by an independent expert for objectivity. The achievements, challenges, lessons learnt, and recommendations from the evaluation will inform the subsequent cycle of the strategic planning.

8.4 Reporting Framework and Feedback Mechanism

All departments will be involved in monitoring and reporting on the progress of results and objectives based on the key indicators agreed upon and aligned to the overall indicators identified in this strategic plan. This will be achieved by ensuring the collection and provision of timely and accurate data during the plan period. The implementing units will be expected to generate reports on a monthly, quarterly, bi-annual, and annual basis. The following table summarizes the various reports that will be prepared to monitor the implementation of the strategic plan:

Table 8.2 – Reporting Obligation

Type of Report	Frequency	Unit Responsible	Consumer
The State of the Fund Report (Public Accountability Statement)	Annually	CEO	Internal stakeholders and Public.
MTP and statutory reports	Quarterly, annually	CEO	MDAs
Fund's Strategic Plan Progress Reports	Annually, Bi-Annual, Quarterly	M&E	Board and Management
Performance Review Report	Annual	M&E	Board and Management
Performance Appraisal Reports	Annually	Manager HR&T	Board and Management

Continuous evaluation of results (outputs and outcomes) will be undertaken by the Monitoring and Evaluation department. The department shall continuously evaluate all strategies, activities and outputs or outcomes with a view to advising the CEO on any performance gaps as well as offer feasible strategy alternatives. The evaluation will entail the following:

- a. Measuring actual performance against target levels and establishing size of gap or variance, if any.
- b. Conducting a root cause analysis to identify factors responsible for the variance.
- c. Identifying and recommending appropriate remedial measures including a review of the objectives and/or strategies or activities.
- d. Undertaking service delivery efficiency and effectiveness surveys.
- e. Coordinating or facilitating impact assessment for various interventions.

Long-term evaluation of results (impact) shall be conducted externally, particularly the mid-term review and end term impact assessment.

APPENDICES

Appendix I: Implementation matrix

[illegible]

Strategy	Key Activities	Expected Output	Output Indicators	Target For 5 years	Target					Budget (KSh. Mn)					Total Budget	Responsibility	
					Y1	Y2	Y3	Y4	Y5	Y1	Y2	Y3	Y4	Y5		Lead	Support
	Invest in short term security	Investments placed	No of investments	2	1		2	-	-	-	-	-	-	-	-	Finance	MRC
